KELVIN® STEM Mechanical Engineering Challenges

NEW!

Design and build working mechanisms to solve real design problems.

Change rotary motion into linear and reciprocating motion using linkages, cam shafts, cranks and gear trains.

Each class pack has materials for 10 students, each selecting three design challenges to solve, for a total of 30 class activities.

Contents include:
 preprinted grid paper, gears, pulleys, cams, cardstock, Kre8® parts, design problem cards and instructions.

Teachers will need to supply glue and hand tools (such as a ruler, scissors, awl, hole punch, utility knife, etc.). Grades 6-12.

KELVIN[®] Road to Maglev Oval Track

1/2 Oval Maglev Track

96" Long Edge to Edge

53" Wide

The guided model travels in a circle on KELVIN[®]'s new oval track.

Works with Any Maglev Car

#851921

Maglev Car
 Road to Maglev Car Kit, #842280, \$9.95 or \$9.45 ea./10+ Bulk Pack of 10, #842281, \$89.95

KELVIN[®] Road to Maglev Oval Track

Build your own oval track that travels from road to maglev! On the road it travels on micro wheels. When the maglev goes over the magnetic field it hovers and the wheels are lifted. Car moves in a circular motion around the track. Complete track features an 8 ft. long oval track made of two straight maglev tracks (#842157, \$99.95) and four curves for the two curved ends (#851921, \$99.95).

If you already have a straight maglev track, you can add two 1/2 plastic oval tracks (#851921, \$99.95) to it to create your own oval maglev track. 9V battery required.

- 842279 Road to Maglev Oval Complete Track - Requires Some Assembly\$345

Dear Educators & Friends,

In these difficult economic times, at KEVLIN® we are working hard to control costs, while developing new and innovative products to ensure teachers have "quality products at affordable prices." We know you're stretching every dollar to maximize it's educational benefit, so check out the pricing on many of the new activity packages and engineering supplies and resources in this catalog.

I always look forward to you comments and suggestions on products and how we can better service your needs.
